The Infinite Pet

Hung up and bent on a stranger Just trying to swing a full-time ride I never knew the cold hand of danger Till I met this one and took it inside

Now I can't get near it Don't want to hear it My cover's blown I walked in the rain like a drone All the way to Marquette

The infinite pet

I got something to tell you Far outside the black and the white Aw I got something I want to tell you But who will receive it tonight When I got up I cut my neckrug off Resigned my name to the ranks of the blamed and the scoffed Cursing the day I met

The infinite pet Comes when you pirouette

Hung up and bent on a stranger Just trying to hitch a full-time ride I never knew the coat check was danger Till I met this one and took it inside

I sat back I put my neckshirt on Resigned myself to the fate of the failed and the conned Just like the day I met

The infinite pet Cheaper than all your threats Comes when you pirouette How'd you pay back that debt The infinite pet The infinite Spoon
