

Club Limbo

Squirrel Nut Zippers

Before this evening draws to a close
And you go home to homework.
Before the moon goes down on lonely street
I know a place where we can go, baby,
Where you can find out just how low life can be.
Has no one told you, you have a future, girl
So bright and filled with promise

Has no one lead you down to Club Limbo.
That's just the place for us to meet, baby,
Where you can find out just how your life should be.
The clock is ticking and you are picking
Clothes, maybe to wear tomorrow
You haven't met me yet...Soon you will
Down at Club Limbo they still play Stardust
Down at Club Limbo that's the place for love.
