Just This Side Of Blue

Squirrel Nut Zippers

I'm just this side of blue Just as close to crackin' up Just this shy of packin' up I'm just this side of blue

It's that time you knew There's no point in talkin it out Just as close to walkin' out That's why I'm tellin' you

I could complain and be a pain But I'd get tired of that I could cuss and raise a fuss That won't fix what's wrong with us

I'm just this side of blue So tired of shackin' up Just this close to crackin' up I'm just this side of blue

It's that time you knew There's no point in talkin' it out Just this close to walking out That's why I'm tellin' you

I could complain and be a pain But I'd get tired of that I could cuss and raise some dust That won't fix what's wrong with us

I'm just this side of blue I'm just this side of blue
