

## My Evergreen

Squirrel Nut Zippers

Summer smiles but passes on  
Autumn sings her lonely song  
The robin waits for Spring  
But what will waiting bring  
Winter spreads her blanket down  
White and flawless on the ground  
The flowers can't be seen  
But you're my evergreen  
Cold north wind has come around  
Fragile ones stay underground

But there is one who thrives  
Despite the chilling sky  
The one I love is constant, though  
Seasons come and seasons go  
She will abide with me  
My darling evergreen  
The one I love is constant, though  
Seasons come and seasons go  
She will abide with me  
My darling evergreen
