## Wished For You

## **Squirrel Nut Zippers**

I wished on a star "Send me down a lover Don't want any other kind of love." Wished on a star "Save my heart from sadness Save my mind from madness from afar." Used to sit and cry all day Wonder why my love would fade. Used to while away the hour Cannot go on, cannot go on Without you. Now I don't do the things I used to do Ever since the day I wished for you.
