

Make this moment last forever and a day  
Watching you drive by  
Not letting you drive away  
Can you see me trying to wave you down tonight  
'Cause I need to see you one more time  
You'll always be there in my mind  
In my dreams you can hide  
And every night I'm gonna bring you back to life  
They're in my mind  
An angel bathed in light  
Telling me everything's gonna be alright...  
If I can fall asleep tonight  
Lonely is the feeling I can't comprehend  
So I'm skipping the last page to see how this will end  
Have you ever felt so helpless  
When the walls built to protect us  
Suddenly are gone  
And you hate everything that's breathing  
The life you're used to cheating  
Has finally caught on
