

I drowned my girlfriend in her wishing well  
I'm not afraid of afterlife hell  
'Cause I live it everyday  
I live it every day

I lit a fire on my neighbor's lawn  
I didn't know them, to me they were my pawns  
'Cause I live it everyday  
I live it every day

I know it's not considered right  
The way I live my days and nights  
I always thought I'd rather be considered lucky than good  
I know it's not considered right  
And everyday another fight  
I always thought I'd rather be considered lucky than good

I buy my porn off the internet  
I get so much fucking junk mail...my only regret  
'Cause I live it everyday  
I live it every day

I know it's not considered right  
The way I live my days and nights  
I always thought I'd rather be considered lucky than good  
I know it's not considered right  
And everyday another fight  
I always thought I'd rather be considered lucky, considered lucky than good

I know we don't think alike  
Your always wrong I'm always right  
Acting not so secretly  
You wanna be just like me

I know it's not considered right  
The way I live my days and nights  
I always thought I'd rather be considered lucky than good  
I know it's not considered right  
And everyday another fight  
I always thought I'd rather be considered lucky

I know it's not considered right  
The way I live my days and nights  
I always thought I'd rather be considered lucky than good  
I know it's not considered right  
And everyday another fight  
I always thought I'd rather be considered lucky  
Considered lucky  
I'd rather be lucky  
Than good
