

Waste Your Life

SS-Kaliert

Hey you, look into my eyes
Do you believe the drug dealers lies?
Really think, drugs make a better world?
Or what other crap have you heard?
He isn't going to help you, No he wants your money
Or are you so high that you can't see?

The night is dark, The moon is shining on the street
Pull on your boots, To see the guy you want to meet
He's waiting in the cold, As if he has nothing else to do

Because he wants to sell the shit he has for you
All your friends told you have to try that
Fuck them all and everything they've said
You say there's nothing with it and you just want to try it
But I know that end, You're not the first guy!

You waste your life- When you pull it in your brain!
You waste your life- When you shoot it in your vein!
Don't waste your life- Or you will go insane

And now you are standing in the street
Begging for money coz you have nothing to eat
That is only what you say but it's not the truth
You want to buy heroin to fucking waste your youth
The dealer has a good life without any bad thoughts
With loads of money and a wife that he bought
Live your life with spikey hair and get fucking drunk
But don't forget the words: PUNX NOT JUNK!
