

Call Me Up

St. Lucia

There was never any limit
Never any power
Stand up and then I listened
Never knew how
You could call me in the middle
Of everything that's been
Stand up and then I listen
To you and I begin

And now you, you can call me up
And now you, you can call me up

How many days ended
I never knew how
Couldn't wait until the moment
To remove any doubt
Can't let you go on talking
When you can talk back
There never any limits
The way you going
Turn up and I listen
To everything you said
I know that there's a limit
Nothing to your head
So I continue calling
But there was no way back
Couldn't listen to the minute
If there was a way back I

And now you, you can call me up
And now you, you can call me up
And now you, you can call me up
And now you, you can call me up

You can call me up, you can call me
You can call me up, you can call me
You can call me up, you can call me
You can call me up, you can call me

There was never any limit
Never any power
Stand up and then I listened
Never knew how
You could call me in the middle
Of everything that's been
Stand up and then I listen
To you and I begin

And now you, you can call me up
Been a long time to tell you
And now you, you can call me up
Been a long time to tell you
And now you, you can call me up
Been a long time to tell you

Oh whoa whoa whoa whoa
Been a long time to tell you

Oh whoa whoa whoa whoa
Been a long time to tell you
Oh whoa whoa whoa whoa
Been a long time to tell you
