Elevate

I don't know how you do it But somehow you always will be there And there's nothing to it But somehow you always understand There's no way to wake up now Too many times I saw you cry And no one can make up it You wait for the sun to make the sky

And no one elevates you, elevates you now And no one's gonna take you, gonna take you there

All this time, never thought I would see you smile Know that I and I know that I see you now But I know I can't walk in Never go back again No matter how, tonight I'll never go back, never go back again

You know that I want to get away And I cannot wait for another day You know that I want to elevate Time to pick it up and celebrate

Hold on to your heart
