

Paper Heart

St. Lucia

Close your eyes
Face the night
Closer to the dance we climb
Arrange yourself
Before the fight
We will always intertwine

And who are you now?
When you don't know where to start?
Push the brakes down
On your little paper heart

From now on
We'll take the past
And the future by the hand
A rose in time
A faded line
All these days just pass me by

And who are you now?
When you don't know where to start?
Push the brakes down
On your little paper heart
