## **Rescue Me**

Tell me all your secrets, your secrets, your secrets Tell me all your secrets, your secrets Cause I really don't think, really don't think there's any way Make me a believer, believer Make me a believer, believer Cause I really don't think, really don't think there's any way

The rain keeps falling in the dead of the night The man keeps calling in the dead of the night Awake 'til morning in the dead of the night All your finer feelings won't give up 'til it's light

Tell me all your secrets, your secrets, your secrets Tell me all your secrets, your secrets Cause I really don't think, really don't think there's any way Make me a believer, believer, believer Make me a believer, believer Cause I really can't think, really can't think of another way We can keep on pushing, keep pushing, keep pushing We can keep on pushing, keep pushing Cause money's gonna come, money's gonna go anyway

The rain keeps falling in the dead of the night The man keeps calling in the dead of the night The lion's roaring in the dead of the night All your finer feelings won't give up 'til it's light The end is coming in the dead of the night Their eyes are watching in the dead of the night The wheels are turning in the dead of the night Keep running through the dark as the snake starts to bite

Rescue me, rescue me Rescue me, me, me, me Rescue me Rescue me, rescue me Rescue me, me, me, me Rescue me Rescue me, oh, rescue me Rescue me, oh, rescue me Rescue me, me, me, me Rescue me Rescue me, rescue me Rescue me, me, me, me Rescue me Rescue me, rescue me Rescue me, me, me, me Rescue me
