

Outside of Space & Time

St. Vincent

My love, your house has many rooms
The kitchen's filled with food
I'll find a place inside

The dreams that pass across your face
Come from a secret place
Everyone close your eyes

It's true
I am a shaky ladder
Intergalactic matter
Outside of space and time

But who is standing on your street
These buildings are not real
Matrix are useless here

'It's true,' that's what a lover hears
It's what a fool believes
It's not too late to try

Someday
I'll step out from the shadows
Intergalactic matter
Outside of space and time

Dirty feet
Broke your teeth
Somewhere out beyond the stars
A funny face
Some lost in space
Are we?

Everyone's enlightened everyday
You may each know nirvana when you comb your hair

I know
We'll join this cosmic Saturn
Intergalactic matter
Where we will meet tonight
Spiraling out of sight
Outside of space and time
