

## What Do I Have To Do?

### Stabbing Westward

You make it hard to breathe  
It's as if I'm suffocating  
And when you're next to me  
I can feel your heartbeat through my skin  
It makes me sad to think  
This all could be for nothing  
I wish there was a way  
For you to see inside of me  
I've never felt this way  
About anyone or anything  
Tell me  
What do I have to do to make you happy?  
What do I have to do to make you understand?  
What do I have to do to make you want me?  
And, if I can't make you want me  
What do I have to do?

I know exactly what you're thinking  
But I swear this time I will not let you down  
I'm not as selfish as I used to be  
That was a part of me that never made me proud  
Right now I think I would try anything  
Anything at all to keep you satisfied  
God I hope you see what loving you would do to me  
All I want is one more chance, so tell me...  
What do I have to do to make you love me?
