

Restore My Soul

Stacie Orrico

So stressed-no hope
Where do I go now
Seems like all of life's tests
Take me further from you
It amazes me- how you rescue me
From a world that moves so fast
So completely -You receive me
into your arms at last

With a single prayer
You restore my soul
When life's not fair
I know where to go
To renew my strength
To keep goin on
No I'll never be alone
With a single prayer
You restore my soul

Lord you give me strength
To know when I'm weak
And to see your guiding hand
When I get down on my knees
piece by piece
you make me whole again
