

Tight

Stacie Orrico

I dreamed,
I was headed down to Puerto Rico
Now I'm feeling like I really gotta go
'Cause I really wanna get away and spend some time with you
To get away
'Cause my life is getting kinda crazy
And the only way to make it is to pray
That's why I really gotta get away and spend some time with you

Or maybe
(Can't I)
I never wanna get down, never wanna let you down
(I'm thinking, once I)
Maybe once I get away, maybe put my thoughts down
(You Save me) save me
(And I thank you) Always
(Now I)
(Live my life) Just for you

So I'm sayin' that I'm prayin' every day
(And I know You're gonna always stay)
Only you can keep us tight
So I pray with all my might
So I say I'm gonna pray it everyday
And I know you're gonna always stay
Only you can keep us tight
So I pray with all my might

At times,
When I'm running with my crew and on the run
And I'm kicking it all day and having fun
And we know that we should really go and spend some time with you
My mind, it was saying I take on You
So when I'm down and when I'm feeling kinda blue
There's a word in my heart that I really wanna say to you

Or maybe
(Can't I)
I never wanna get down, never wanna let you down
(I'm thinking, once I)
Maybe once I get away, maybe put my thoughts down
(You Save me) save me
(And I thank you) Always
(Now I)
(Live my life) Just for you
(Some say I pray it everyday) Everyday
(And I know You're gonna always stay)
Only you can keep us tight
So I pray with all my might
So I say I'm gonna pray it everyday
And I know you're gonna always stay
Only you can keep us tight
So I pray with all my might

So I say I'm gonna pray it everyday
And I know you're gonna always stay
Only you can keep us tight

So I pray with all my might (2x)

We can here so we could rock the house

Blow it up and turn it out

Make you dance, make you dance

Party up and we be putting it down

Baby, maybe we can rock the house

Turn it up and blow it out

Make you dance, make you dance
