You push yourself on me Force yourself on me Free yourself through me

You better save yourself from me Every time you want me to be Something I could never be Guess you'll have to wait and see Till the next time that you have to

## COME AGAIN!

I hate myself for you
I break myself for you
I'd kill myself for you
I'd better save myself from you
Everytime you want me to be
Something I could never be
Guess you'll have to wait and see
Till the next time that you have to

## COME AGAIN!

If you have to walk my way Have somethingto say Get the fuck away Can't take one more day I cannot conform

COME AGAIN!
