Falling

Staind

You in your shell
Are you waiting for someone to rescue you, from yourself?
Dont be disappointed when no one comes

Dont blame me, you didnt get it
Dont blame me, you didnt get it
Dont blame me, you didnt get it
I already told you that

Falling is easy, its getting back up that becomes the problem
Becomes the problem
If you dont believe you can find a way out
You become the problem
Become the problem

You, all alone, are you waiting for someone to make you a home?

Cant you see, arent you tired of this dysfunctional routine?

Dont blame me, you didnt get it
Dont blame me, you didnt get it
Dont blame me, you didnt get it
I already told you that

Falling is easy, its getting back up that becomes the problem
Becomes the problem
If you dont believe you can find a way out
You become the problem
Become the problem

I already told you that

Falling is easy, it's getting back up that
becomes the problem
becomes the problem
If you don't believe, you can find a way out
You become the problem
become the problem

Falling is easy, it's getting back up that becomes the problem
Becomes the problem
And if you believe you can find a way out
Then youve solved the problem
Youve solved your problem
