Don't Box Me In

Stan Ridgway

You walk I'll run And follow right behind you You call I'll come And I won't remember where I come from Over there At the end of the bar This fish keeps swimming In a jar I feel A tug on the line Which end Will I be on this time? Don't box me in Don't box me in One day I'll show them Just what I'm made of The'll be A time When I won't remember what I was afraid of And I'll be swimming In the sea No banging on this glass For me My eyes saw red When my world turned blue So I'm leaving Everyting that's true And I'll jump into A brand new skin And then you won't be able To box me in Don't box me in Don't box me in Don't box me in Let go! There's a few places 'round That I've never been There's an ocean out there That I gotta swim There's a river that flows Right past my door I wonder... I wonder... What?!

And if sometimes I can't seem to talk You'll know this blackboard lacks A piece of chalk Don't box me in I told you not to Don't box me in Don't box me in Let go!
