

## Hear That Bird

Stan Ridgway

I hear that bird chirpin' in the tree  
I wonder what he's seein' I don't see  
Now everybody's happy, but today I feel so wrong  
So I guess I'll just shut up and move along

Chasin' dreams that float like dust in th' air  
Grab 'em once, but twice, they disappear  
Up in smoke they hover, like dope rings from a bong  
So I guess I'll just shut up and move along

I was thinkin' 'bout you just the other day  
And if you could see me now, and what you'd say  
Some things do get better“c”cyeah, the « weak (week? ) » goes t  
o the strong  
But then I guess I'll just shut up and move along

I hear that bird chirpin' in the tree  
I wonder what he's seein' I don't see  
Everybody's happy, but today I feel so wrong  
So I guess I'll just shut up and move along  
Guess I'll just shut up and move along  
Guess I'll just shut up and move along  
Just move along
