Galaxy

Stan Walker

Hey, uhuuu! Not sure how I survived Before I lived this night Before I came alive, I was lost I felt you pulling me, harder than gravity Harder than anything I know

So in love with you, There's nothing I won't do I'll travel at the speed of light So I can be right by your side

You make me feel like the whole world isn't real, And I'm the only star in the sky, sky, sky

Ey, there's no time or space Everything just melts away when I'm lying here In your galaxy With you is my eternity No place I'd rather be when I'm lying here In your galaxy Oh, oh, oh, oh, oh In your galaxy With you is my eternity No place I'd rather be when I'm lying here In your galaxy

Oh, oh, yeah Like a comet to my heart You illuminate the dark Show me all the parts of me I've never seen We come from different places, different constellations When I'm with you I'm home, I'm home

You make me feel like the whole world isn't real, And I'm the only star in the sky

Ey, there's no time or space Everything just melts away when I'm lying here In your galaxy With you is my eternity No place I'd rather be when I'm lying here In your galaxy Oh, oh, oh, oh, oh In your galaxy With you is my eternity No place I'd rather be when I'm lying here In your galaxy

You healed every heartbreak Took me on a journey To a place so high Way above the clouds Don't matter where we go, As long as I'm in your world I never wanna be any place, yeah Ey, there's no time or space Everything just melts away when I'm lying here In your galaxy With you is my eternity No place I'd rather be when I'm lying here In your galaxy Oh, oh, oh, oh, oh In your galaxy With you is my eternity No place I'd rather be when I'm lying here In your galaxy
