

# Love Graffiti

Stan Walker

On your notebook  
It said that you loved me  
We got older  
Carved it into a tree  
Made it permanent  
Wrote it in the concrete  
On the walls, in the halls  
On the bus, show my love  
Tagged up everything

Oh but if I had a rocket  
Girl this is what I'd do  
I'd set my course and I'd blast off  
And head straight t'wards the moon so I could...

Write your name across the sky  
And write Love Graffiti  
Write your name across the stars  
And write Love Graffiti  
I'd spray paint the clouds  
I'd tag up the moon to show that I Love You  
I'd write your name across the stars  
And write Love Graffiti

I'd write your name across my chest  
But that won't ever be enough..  
(No) I'd rather pay the fine  
So NASA has to clean it up  
Up and away  
To show the world that you are mine  
(Down) Down below  
Back on Earth  
I know you'd be smiling

Oh but if I had a rocket  
Girl this is what I'd do  
I'd set my course and I'd blast off  
And head straight t'wards the moon so I could...

Write your name across the sky  
And write Love Graffiti  
Write your name across the stars  
And write Love Graffiti  
I'd spray paint the clouds  
I'd tag up the moon to show that I Love You  
I'd write your name across the stars  
And write Love Graffiti

Send you flowers  
Hearts and candy  
Baby it's been done before  
Write your name on Saturn's rings  
Permanently  
Baby no  
Wanna show you  
That I'd put no one before you  
Wanna know how much

Just look above  
Cause baby I'd write...

Write your name across the sky  
And write Love Graffiti  
Write your name across the stars  
And write Love Graffiti  
I'd spray paint the clouds  
I'd tag up the moon to show that I Love You  
I'd write your name across the stars  
And write Love Graffiti
