

Move Your Body

Stan Walker

Ooh, yeah

Save me
Through the movement of your body
Let the music take you away
Away from here
And let it change us
The way we sway pulls us together
I'll be yours forever
I'll be yours forever

Let yourself be free
Let yourself be free
Let yourself be free
Let yourself be free
Let yourself be free
Let yourself be free
Let yourself be free
Let yourself be free

[Chorus]
Girl, let me take you tonight
Let me show you right
I wanna break you down and show you how
So you can move, move your body
Move, move your body tonight, tonight

Save me
Through the movement of your body
This feeling got us going crazy (Baby)
It's so intoxicating
And let it change us
The way we sway pulls us together
I'll be yours forever
I'll be yours forever

[Chorus]
Girl, let me take you tonight
Let me show you right
I wanna break you down and show you how
So you can move, move your body
Move, move your body tonight (Yeah, yeah, yeah)

C'mon and move, move your body (Let's move your body, babe)
Move, move your body, girl
Move, move your body (Let's move your body)
Move, move your body, girl
Move, move your body (Yeah, yeah, yeah)
Move, move your body tonight, tonight

And lover
I'll be yours forever
As long as you feel me, feel me, feel me
As long as you feel me, feel me, feel me

Yeah, yeah, yeah, yeah
Ooh, uh

[Chorus]

Girl, let me take you tonight
Let me show you right
I wanna break you down and show you how
So you can move, move your body (Yeah)
Move, move your body tonight

C'mon and move, move your body (Let's move your body, babe)
Move, move your body, girl (Body)
Move, move your body (Let's move your body)
Move, move your body, girl (Ooh!)
Move, move your body (Yeah, yeah, yeah)
Move, move your body tonight, tonight, tonight
