

Music Won't Break Your Heart

Stan Walker

Ooh

When everybody's gone
And no one else is on the same train
Moving on your own
And you're the only one that's changing

Straight ahead
You thought this road was gonna be easy
But you missed again
That kind of love never lasts forever

[Chorus]

Love can break your heart but not tonight
Let the music play, let the music play
Let yourself be free, this is your night
Let the music play, let the music play
Because the music, the music, the music won't break your heart
Let the music play, let the music play
Because the music, the music, the music won't break your heart
Ha-ha-ha-heart

Let your heart sound
To the beat, let it save you
Hold the rhythm close
Feel its love appreciate you

Let it take you in
Cause it's always there when you need it
Let it raise your skin
Give you everything that you're missing

Love can break your heart but not tonight
Let the music play, let the music play (Hey)
Let yourself be free, this is your night
Let the music play, let the music play
Because the music, the music, the music won't break your heart
Let the music play, let the music play
Because the music, the music, the music won't break your heart
Ha-ha-ha-heart

Let the music play
Let the music play
Music, the music
Won't break your heart, heart, heart

Love can break your heart but not tonight
(Won't break your heart, hey)
Let yourself be free, this is your night
(Hey)

[Chorus]

Because the music, the music, the music won't break your heart (Oh)
Let the music play, let the music play
Because the music, the music, the music won't break your heart
(Let yourself be free)
Let the music play, let the music play

Because the music, the music, the music won't break your heart
(The music won't, yeah)
Let the music play, let the music play
Because the music, the music, the music won't break your heart
(Music, the music)
Let the music play, let the music play (Your heart)
The music won't break your heart
