## Sail On

Stanfour

You - oh you can't see the light No you can't see the light Your world - your world's so frail Oh oh But wait - too late to agonize Over what could have been It's our fate Just keep your head up high tonight You sailed on for so long Waited for so long Save yourself tonight Save yourself tonight Sailed on for so long Don't break just sail on Save yourself tonight Save yourself tonight You are chasing truth, oh The fire burns inside of you But you wouldn't know Oh oh But you cry - I see you cry, oh I see the same old tears Are streaming down your face again You sailed on for so long Waited for so long Save yourself tonight Save yourself tonight Sailed on for so long Don't break just sail on Save yourself tonight Save yourself tonight You sailed on for so long Waited for so long Save yourself tonight Save yourself tonight Sailed on for so long Don't break just sail on Save yourself tonight Save yourself tonight But you sailed on Sailed on for so long Don't break just sail on Save yourself tonight Save yourself tonight
