

## Say You Care

Stanfour

You seem so calm  
But inside you bleed  
Game's changing once again  
You holdin' back  
You don't proceed  
Cause your heart will not admit  
But your eyes can not pretend  
You're fallin' for it

Oh I was captured right away  
I was scared  
That you would lie to me and say  
Oh I was humbled by your grace  
I was scared  
That you would lie to me and say  
Say you care  
Oh say you care

You searching for  
Something real  
But you're lying to yourself  
You came so close  
The perfect feel  
Now you blame yourself  
For being so weak  
But your eyes can not pretend  
Your fighting for her

Oh I was captured right away  
I was scared  
That you would lie to me and say  
Oh I was humbled by your grace  
I was scared  
That you would lie to me, oh please lie to me and say  
Say you care

Oh say you care
