

# Take Me Or Leave Me

Stanfour

I'm still not breaking  
It's getting so cold  
Waiting for reasons to run for  
The world is so jaded  
It's stealing my view  
But I just can't go on chasing you

Words without faith  
Hearts without love  
The tears on your face just don't pay of  
The times they are changing  
Not everything is gold  
Take me or leave me  
Cause I can let go

mmmhhhh  
Something is fading  
You're pulling away  
I need you soon am I too late  
Can't stay here cause you're already gone  
I wish I knew where we belong

Words without faith  
Hearts without love  
The tears on your face just don't pay of  
The times they are changing  
Not everything is gold  
Take me or leave me  
Cause I can let go

It's all my illusion  
That crash to the ground  
Something inside me keeps holding us somehow  
I'm still a believer  
Love we're fighting for  
I don't want to say goodbye  
I want more, cause I wabt more

Words without faith  
Hearts without love  
The tears on your face just won't pay of  
The times they are changing  
Not everything is gold  
Take me or leave me  
Cause I can let go
