

# Intergalactic Space Crusaders

Star One

We're on our way to a prison in space  
Our last flight, the final phase  
I was betrayed and now I've been caught  
As the brains of a massive fraud

I can't remember, am I insane?  
My mind is blank cos they emptied my brain  
I will return, I will be back  
I will unite us and we will attack

I don't care about your plans and schemes  
Don't give a damn 'bout your righteous dreams  
All that I do, I do for myself  
I never cared for anyone else

We have to save them, we have to try  
We can't just watch while the innocent die  
Let's steal this ship and start our crusade  
Powerful allies will come to our aid

Seven fighters  
Navigators  
Intergalactic space crusaders  
Federation  
Dictators  
No scruples, lethal traitors  
Outriders  
Invaders  
Intergalactic space crusaders  
Domination  
Liberators  
Fighting to survive

Who on Earth do you think that you are  
Without me you wouldn't get far  
I've had enough of your private war  
Why are we fighting, what is it all for

To right the wrong, to fight a good fight  
Living like you just wouldn't be right  
I am the leader, I have the skills  
Either you leave or you yield to my will

I can't believe you gave us away  
Although it hurts, I will make you pay  
Don't understand, can't figure out why  
All I know, you have to die!

Our strong bond couldn't keep us apart  
I've always trusted you right from the start  
You've been deceived, they're telling you lies  
I'm still the same, I'm on your side
