

## Perfect Survivor

Star One

We wake up in our spaceship from a year in hypersleep. On our way back to our system we receive a message from an uncharted planet. We decide to go in. We see a giant spacecraft whose crew has been hideously killed.

Absolute perfection  
I find it hard to escape its attraction  
Its strength and genius unhampered by morality  
My secret mission brings me back to reality  
I have to bring it back alive

Perfect survivor  
Of an alien hostile race  
Perfect survivor  
Of a human crew in outer space

We return to our spaceship and break the quarantine. A strange unknown creature has invaded our ship and now it's killing us slowly. We're dying one by one. There is no way to stop it. Most of us have given up all hope.

The ship is indefensible  
You should know that you all are expendable  
My sole objective is to offer it protection  
I have been programmed to put you out of action  
If I'm to bring it back alive
