

# Ordinary Life

Starfield

Take me and invade me  
Make me someone new  
Wake me from the dead  
And break me with the truth

Move me and disturb me  
Interrupt my peace  
Tear open my heart  
And pull me to my knees

There's a world outside  
That is burning  
While I'm turning blinded eyes  
While I stand by

I won't survive  
To live this ordinary life  
I'm not alive  
To live this ordinary life

And I will try  
To see this world I live in  
With Your eyes  
To love this world You've given  
With my life  
To see this world I live in  
With Your eyes  
To love this world You've given  
With my life
