

# The Loveliest Sound

Starfield

What could we bring that You'd ever need? (that You'd ever need )

What could we do that's worthy of You? (that's worthy of You)

What could we say that You have never heard?

Sung by angels in heaven and earth

[Chorus:]

The loveliest song is the song on the lips of the broken and th  
is is

The loveliest sound when Your children cry out we were lost now  
we're found

The loveliest sound to You is the sound we're making now

Merciful one there's nothing we've done (nothing we've done)

To ever deserve to be heard (to be heard)

But You bend Your ear to the sound of our voice

So let it rise up above every noise

Now let it rise up above every noise

[Chorus]

Who are we that You look on us?

Our offering is a song of love

How can it be You delight in us?

In what we bring 'cause it's not enough

(who are we that You look on us with love?)

[Repeat x2]

No it's not enough

The loveliest sound (crying out, we're crying out, the children  
cry for you)

The loveliest sound (the loveliest, the loveliest, the lovelies  
t sound)

The loveliest song is the song on the lips of the broken and th  
is is

The loveliest sound when Your children cry out we were lost now  
we're found

The loveliest song is the song on the lips of the broken and th  
is is

The loveliest sound when Your children cry out we were lost now  
we're found

The loveliest sound to You is the sound we're making

It's the sound You're longing for
