No More Shows

When there's no heart Yeah, I wanna live again Can't delay it no, no more No youve got no heart

I try to sleep but I think a lot I'm driving streets that just never stop When you know there's gonna be When you know there's gonna be no more shows

When there's no goals Yeah, I wanna live again Can't delay it no, no more No you've got no soul

I try to sleep but I think a lot I'm driving streets that just never stop When you know there's gonna be When you know there's gonna be no more shows

I try to sleep but I think a lot I'm driving streets that just never stop When you know there's gonna be When you know there's gonna be no more shows
