

When You Feel Miserable

Starflyer 59

time waits for no one
but you i'd wait for so long
but still i feel the times
of your rolling eyes around here
take a walk with a sweet girl
so sweet you know it's true
but you're wasting away
i just wish it would stay

take a walk down a highway
down my way
take a walk when you feel miserable

one date you'll find
your eyes and a woman who's kind
could you still fill the day
if you ran out of me

take a walk down a highway
down my way
take a walk when you feel miserable
