

## Kick It Up a Notch

**Starkid**

PINCER-

Scales and exoskeletons

Why, they pale in comparison

To a body that is covered up by skin.

We get rid of those antennae,

Give you hair and clothes, and then I

Add two eyes and a nose and my boy that is only

The beginning

(Talking) Hmmm...

What do you say?

You become a Starship Ranger?

BUG-

(Talking) Me?

PINCER-

(Talking) Now listen to me, my confused little friend, we are friends, after all.

I used to have my fair share of doubts and fears and, well, they quite literally almost ate me alive.

But NO! I took charge! I pushed it to the limit!

So you gotta be strong. Be tough!

To coin a phrase...be a man. Ahahahaha!

(Singing) You gotta kick it up a notch

If you're ever gonna reach your goal

You can't sit around and watch

Your destiny is in your control

Go ahead and, kick it up a notch

If your life is at a level too low  
There's no attempt, that you can botch  
When all you gotta do is just give it a go  
But then again, what do I know?

What I see right there  
Is a prisoner  
Who's sitting on top of the key!

So kick it up a notch  
If you ever wanna be  
Free

BUG-

(Talking) Wow. A real Starship Ranger. That- that would be the coolest thing  
in the world!

PINCER-

It would, wouldn't it? A bug in a human body. You could be the link between  
our race and theirs!

BUG-

Well, do I even what it'd take-

PINCER-

Shhhhh...

MOSQUITOES-

(Singing) All you gotta do is  
Kick it up a notch  
To dig yourself outta this hole  
You wanna have the things they got?

Then you gotta give that dice a role  
Kick it up a notch  
What's the point of less when there's more?  
Have a cigar  
A glass of Scotch  
When opportunity knocks on your door  
You let him in and then ya settle the score!

PINCER-

Life is short  
So before it's over  
Take a chance and think it through  
You better kick it up a notch

MOSQUITOES- It's the human thing...to do.

PINCER-

Hahahaha  
It's a big, big universe  
So many dimensions and unanswered questions  
Not to mention  
Life  
What an invention  
Life  
There's no choice involved in what you are given  
One mind, one voice, one body to live in  
But  
You wanna be  
A Starship Ranger  
Or is that a dream that you forgot?  
You wanna be  
A Starship Ranger

Well this might be your, one and only shot!

(Talking) So here's the choice, Bug!

You can go on leading your meaningless existence

Or you can take everything you've ever wanted

All I ask in return, is that you befriend the humans

And bring them back to me

Well, Bug? Whaddya say?

BUG-

(Singing)

I...

I..

I think I'll kick it up a notch!

I don't care about the Queen or the hive!

PINCER-

That's the spirit! Kick em all straight in the crotch, how bout that?

Bug-

Yeah!

Who are they to deprive us, who wanna do?

(Simultaneously)

BUG-

I'm gonna be a Starship Ranger!

I'm gonna be a Starship Ranger!

I'm gonna be a Starship Ranger!

PINCER-

Kick it up a notch

Don't give yourself a reason to doubt

You gotta strike it while it's hot

Cause that's what livings all about!

My dear Bug, it's time to start

And

OUT!

BUG-

(Talking)

Well, see you on the other side Pincer. I love you.

PINCER-

(Talking)

Duh oh...oh...uh I uh I love you too, Bug. Ahahaha

MOSQUITO-

(Talking)

I know we're suckers, but that guys a SUCKER!

PINCER-

(Talking)

Yes, yes what a dumba\*\*

Break out the good china boys!

Tonight, we dine, again!

(Singing)

Kick it up a notch

Oh, my plan is all about to unfold

Let's put a twist, into this plot

Bug, go forth, do everything that I've told ya

When we, kick it up a notch

MoOSQUITOES-

It's blood for us!

PINCER-

And brains for me!

I'm gonna let this little snot

Be everything he's wanted to be

But only because I know he'll actually

Feed my hunger for flesh

I want it warm and fresh!

PINCER AND MOSQUITOES-

Oh, Pincer, you're in for a treat!

(OVERLAPPING)

PINCER-

Let's kick it up a notch

MOSQUITOES-

Kick it up a notch

PINCER-

So at last

I'll have human, meat!

HAHAHAHAHAHA!
