

# Status Quo

**Starkid**

It starts with not questioning the answers

and giving up before you've begun

It locks all the doors

Increases the pressure

And in a flash

Your time is up before its done

And you all know how it can feel

To feel at all

(Chorus)

So I say

Noooo to Status Quo

Who wants to be like

The rest and deny the best that I'm meant for

I will show

The Status Quo

Who cares about normal

I'll never conform

I'll be content

To resent the Status Quo...

I kick down the walls around me

They don't know how strong

I am...

I'm not defined by boundaries

They could never understand

That I'm so much more

Than Status Quo

Forget about being

Another pipe dreamer

Stuck on the bottom floor  
And i know  
It's time to go  
So maybe I've gotten everything  
That I wanted  
And I think that  
I might have made it so  
When i said no, no, no  
To Status Quo  
To Status Quo

I am a starship ranger  
and i will do everything i can  
to always be a starship ranger  
its everything  
its everything  
I am
