

# Super Friends

Starkid

It seems so funny as I look back  
At the folly of my ways  
I climbed as high as  
One can climb on their own

I scaled the highest mountain  
Did a pirouette at the tippity top  
And when you

Gotta get down, gotta get down, gotta get down  
You need someone to count on

Some mark their friendship  
With bracelets and lockets

Some measure their friendship  
With silver and gold

Some show their friendship  
With matching tatoos

We forge our friendship  
By saving the world!

I want to be your friend forever

I want to be a modern dancer

What a super queer thing to say  
That came out of nowhere

I want to be your friend forever

Pass me the cup of kinship

Meet me at my place  
The fortress of friendship!

I want to be your friend forever

I want to see the Eiffel Tower

With the power of a super friend  
You're never alone

I want to be your friend forever

I want to play Nintendo

Who needs Nintendo  
When you've got a friend? Oh!

Like a bat in the sun  
I'm losing my guano  
I've only known darkness  
All my days

Dude it's cool, it's chill  
We're totally here for you

Will there still be scary times?

Yeah

And sad times?

Sure

Then what?

Tequila times?

I've got the limes...

I want to be your friend forever

I want to meet Barack Obama

With the power of a super friend  
You're never alone

I want to be your friend forever

I want to learn to play the banjo

Who needs a banjo  
When you've got a man show?

I want to be your friend forever  
I want to be your friend forever  
I want to be your friend forever  
I want to be your friend forever

Finally, I've found a friend  
I've finally found a friend

Finally, I've found a friend  
I've finally found a friend  
(Super friends)

Finally, I've found a friend  
I've finally found a friend  
(Super friends)

Finally, I've found a friend  
I've finally found a friend  
(Super friends)

Finally, I've found a friend

(Super duper friends)

One man...

Many friends!

Going down a road that never ends

Super friends, super bros  
Super hearts with super souls

We're like long lost brothers  
Who've found each other  
And love each other like family  
(Holy musical...)

We're like long lost brothers  
Who've found each other  
(No more dark sad lonely nights!)  
And love each other like family  
(Holy musical...)  
(Rogues are we!)
