

# Alone

Stars

He was a shy boy when he was at school  
It took him years to learn the golden rule  
He gets so angry, see it in his eyes  
He has no patience with people telling lies  
To where the oldest dies

I want to live where there's room to breathe  
Take one step closer and I'll swear I'll live alone  
Erase the past and never hesitate  
Don't leave the light on, don't stay up and wait alone  
Alone, alone

Alone, alone, alone, alone, alone  
Alone, alone, alone, alone, alone

He was a quiet man who always knew his place  
The morning train was a fate he had to face each day  
He'd get so lonely and now everybody's gone  
He watches from his window as the world moves on but he'll stay  
'Cause it's better that way  
He said

I want to live where there's room to breathe  
Take one step closer and I'll swear I'll live alone  
Alone, alone  
Erase the past and never hesitate  
Don't leave the light on, don't stay up and wait alone  
Alone, alone

Well I've got the keys and I've got the car  
Don't make me need you when I've come this far alone  
Alone, alone

Alone, alone, alone, alone, alone  
Alone, alone, alone, alone, alone  
Alone, alone, alone, alone, alone  
Alone, alone  
Alone, alone  
Alone, alone  
Alone, alone, alone...
