

# Dead Hearts

Stars

Tell me everything that happened  
Tell me everything you saw  
They had lights inside their eyes  
They had lights inside their eyes

Did you see the closing window?  
Did you hear the slamming door?  
They moved forward, my heart died  
They moved forward, my heart died

Please, please tell me what they look like  
Did they seem afraid of you?  
They were kids that I once knew  
They were kids that I once knew

[Chorus]  
I could say it, but you won't believe me  
You say you do, but you don't deceive me  
It's hard to know they're out there  
It's hard to know that you still care  
I could say it but you won't believe me  
You say you do but you don't deceive me  
Dead hearts are everywhere  
Dead hearts are everywhere

Did you touch them, did you hold them?  
Did they follow you to town?  
They make me feel I'm falling down  
They make me feel I'm falling down

Was there one you saw too clearly?  
Did they seem too real to you?  
They were kids that I once knew  
They were kids that I once knew

[Chorus x2]

They were kids that I once knew  
They were kids that I once knew  
Now they're all dead hearts to you  
Now they're all dead hearts to you

They were kids that I once knew  
They were kids that I once knew  
Now they're all dead hearts to you
