

## Don't Be Afraid to Sing

Stars

Your quiet eyes, your mouth that never tells lies  
You've got one hour, its time you told your story  
Eighteen alone, in love with the answer phone

And too afraid, you're too afraid to fall for anything  
And too afraid, much too afraid to sing

I won't pretend, that I can see the end, but  
Its far away, its in the distance  
We'll find a place, there isn't room for two of us  
The minutes drag, then there's a world between us

And I'm too afraid, much too afraid to fall for anything  
And I'm too afraid, much too afraid to sing, to sing

We all come to an end  
And we all end together  
We all come to an end  
And we all end together  
We all come to an end, yea,  
And we all end together  
We all come to an end  
And we all end together
