

On the Hills

Stars

What a hopeful electric in your eyes
Still surprised when I see a flash
You're trying not to die
But [?] in a mood
Still cracks through everything
A player's game and the free
Fall so beautiful and stained

The very start was hard to believe
(Sometimes it seems so hard to feel)
that you and I was all we could see
(Could it be it was only a dream)
And in time we couldn't see
(Still remains to be seen)
On the hills if you still follow me

In the night the restless sleep fills the page
Another day as the sun moves across abandoned space
My heart rate never still as I wait for you to say
It's going to be okay, nothing's changed
Baby, don't worry, nothing's changed

The very start was hard to believe
(Sometimes it seems so hard to feel)
that you and I was all we could see
(Could it be it was only a dream)
And in time we couldn't see
(Still remains to be seen)
On the hills if you still follow me

The very start was hard to believe
(Sometimes it seems so hard to feel)
that you and I was all we could see
(Could it be it was only a dream)
And in time we couldn't see
(Still remains to be seen)
On the hills if you still follow me

Follow me on the hills
Follow me on the hills
Follow me on the hills
Follow me
