

Opinions Versus the Sun

Stars

Caught forward, that's our mistake.
Proof you can see above the frozen, hold it
Together their mind's a cave
So much collective hate
Back up the other way
No substance contends

Steady eyes staying level on me
I hope I never see what they see
You'll always feel it, you're the sweetest one
Let's let them live their whole lives bored

Walk on by me, save me, save me
Walk on by me, save me, save me
Walk on by me, save me, save me
Walk on by me, save me, save me

Let's get back, make sure it's cruel
I think it's my sarcastic fool
I wonder who raised you
The facts trigger a chance
The love you lost
The circumstances won't lead us to bitterness
Let's leave it to you.

Steady eyes staying level on me
I hope I never see what they see
You'll always feel it, you're the sweetest one
Let's let them live their whole lives bored

Walk on by me, save me, save me
Walk on by me, save me, save me
Walk on by me, save me, save me
Walk on by me, save me, save me

Walk on by me, save me, save me
Walk on by me, save me, save me
Walk on by me, save me, save me
Walk on by me, save me, save me

Walk on by me, save me, save me
Walk on by me, save me, save me
Walk on by me, save me, save me
Walk on by me, save me, save me

Walk on by me, save me, save me
Walk on by me, save me, save me
Walk on by me, save me, save me
Walk on by me, save me
