

# Time Can Never Kill the True Heart

Stars

One step closer to the sea wall,  
Looking down you can see all,  
Hold my hand, so you dont fall,  
catch your breath as the gull's call,

One heart out of two,  
One life, me and you,  
One heart out of two,  
One life, me and you,

One heart out of two,  
One life, me and you,  
One heart out of two,  
One life, me and you,

Last mile, in the pale light,  
Take me home with you tonight,  
We'll touch till' it feels right,  
You wont say love but I might,

One heart out of two,  
One life, me and you,  
One heart out of two,  
One life, me and you,

One heart out of two,  
One life, me and you,  
One heart out of two,  
One life, me and you,

Made love, and you muttered "we're through,"  
One heart, but mine was in two,  
One half filled with the dreams of a saint,  
The other filled with nothing but hate,  
I hope i die, in the arms of a child,  
In a meadow where the thistles grow wild,

One heart out of two,  
One life, me and you,  
One heart out of two,  
One life, me and you,

One heart out of two,  
One life, me and you,  
One heart out of two,  
One life, me and you.
