## Tonight

come around and say you love me hang your heart in lights above me is that too much to ask for? When the night descends upon us take a shower dry your hair by the furnace I'll watch you from the corner

Telephones and old typewriters words of love along the wires Let's make it work tonight Telegraphs and birds that fly through air so still you hear me sigh Let's make it work tonight Tonight, tonight

Then furious you threw the picture eye cap in hand an awful mixture That kind of hard love is the worst I try to speak but you don't hear me when you're gone you still feel near me for a while for a littl e while

I've tried Telephones and old typewriters words of love along t he wires But nothing is working tonight I've tried telegraphs and birds that fly through air so still y ou hear me sigh But nothing is working tonight Tonight, please let's make it work tonight Please let's make it work tonight
