Change My Mind

Starsailor

Maybe you think she's not for me Maybe you think she's got a chequered history Maybe I should not have to try Send her some money And have an easy life

Couldn't change my mind Though I try this time Couldn't change my mind If you tried

Maybe we've lost our little way Maybe we'll get back the dreams of yesterday Tell me your weakness and I'll try To make a balance I know that I've got mine

Couldn't change my mind Like the hands of time Couldn't change my mind If you tried

Lord you've tried

And if I fall would you catch me Understand all I could be Open up let it breath

Couldn't change my mind Like the hands of time Couldn't change my mind If you tried

Lord you've tried
