

# Lullaby

Starsailor

Get back on your feet again  
So insincere  
Quiet American  
I held you so dear

Get back on your feet again  
I'm so into you  
We met in a cinema  
You fell from my view

Lullaby  
Stop twisting my words tonight  
If you get high on life  
Don't leave me behind

Get back on your feet again  
Nothing to say  
Some of your weaker friends  
Get in my away

Get back on your feet again  
You always seem down  
Some of your weaker friends  
Don't want you around

Lullaby  
Stop twisting my words tonight  
If you get high on life  
Don't leave me behind

Lullaby  
You live in my ruined mind  
Make light of all my fears  
And lead me from here

Get back on your feet again  
So insincere  
Quiet American  
I held you so dear  
Get back on your feet again  
Nothing to say  
We met in a cinema  
You got in my way

Lullaby  
Stop twisting my words tonight  
If you get high on life  
Don't leave me behind

Lullaby  
You live in my ruined mind  
Make light of all my fears  
And lead me from here
