Poor Misguided Fool

Starsailor

As soon as you sound like him Give me a call When you're so sensitive Its a long way to fall

Whenever you need a home I will be there Whenever you're all alone And nobody cares

You're just a poor misguided fool Who thinks they know what I should do A line for me and a line for you I lose my right to a point of view

Whenever you reach for me I'll be your guide Whenever you need someone To keep it inside

Whenever you need a home I will be there Whenever you're all alone And nobody cares

You're just a poor misguided fool Who thinks they know what I should do A line for me and a line for you I lose my right to a point of view

I'll be your guide in the morning You cover up bullet holes

As soon as you sound like him Give me a call When you're so sensitive Its a long way to fall

You're just a poor misguided fool Who thinks they know what I should do A line for me and a line for you I lose my right to a point of view
