

Tell Me It's Not Over

Starsailor

Thought I'd lost you once again
All that drink had brought some trouble to our name
Late at night I feel no shame
All my old war stories take me back again

Now the lights out
I discover
She is sleeping with another
Tell me it's not over

What a place to steal your fate
A deserted car park
Not even a date
Please don't tell me it's too late
If you love someone
Don't throw it all away

Now the lights out I discover
Just a weekend
Undercover
Tell me it's not over

Tell me it's not over
Tell me it's not over

Now the lights out I discover
Just a weekend
Undercover
Now the lights out
I discover
She is sleeping
With another
Tell me it's not over
