

## Tell Me It's Not Over

Starsailor

Thought I'd lost you once again  
All that drink had brought some trouble to our name  
Late at night I feel no shame  
All my old war stories take me back again

Now the lights out  
I discover  
She is sleeping with another  
Tell me it's not over

What a place to steal your fate  
A deserted car park  
Not even a date  
Please don't tell me it's too late  
If you love someone  
Don't throw it all away

Now the lights out I discover  
Just a weekend  
Undercover  
Tell me it's not over

Tell me it's not over  
Tell me it's not over

Now the lights out I discover  
Just a weekend  
Undercover  
Now the lights out  
I discover  
She is sleeping  
With another  
Tell me it's not over
