## Way Back Home

**Starsailor** 

Be still my child We'll overcome The evil mind behind the bomb

So lift your hearts Open your minds And leave no room For words unkind

Be still my friends We'll overcome The evil mind behind that bomb

Don't waste your words I've already grown I'm gonna find my way back home Don't waste your words I've already grown I'm gonna find my way back home

Be still my friends We'll overcome The evil mind behind that bomb

Don't waste your words I've already grown I'm gonna find my way back home Don't waste your words I've already grown I'm gonna find my way back home (2x)
