

# You Never Get What You Deserve

Starsailor

Well they let you down  
Fallen angel, upon the ground  
And they filled you all up with drugs  
Then one day you just gave it up

You're a shining star  
Hotels, airports and mini bars  
And you lived your life by the book  
Then one day you just gave it up

And you, you never get what you deserve, not you  
On a life support machine  
A damaged teenage queen  
A danger to yourself

Did she bring you round  
Or win your heart by just being round  
O do you think of the one you lost  
Late at night while you count the cost

And you, you never get what you deserve, not you  
On a life support machine  
A damaged teenage queen  
A danger to yourself

Life was dealt an awful hand  
It didn't end as planned  
It started off so well  
It started off so well
